

MODEL 13400HE

AQUA STRIPPER

P R E S S U R E W A S H E R S

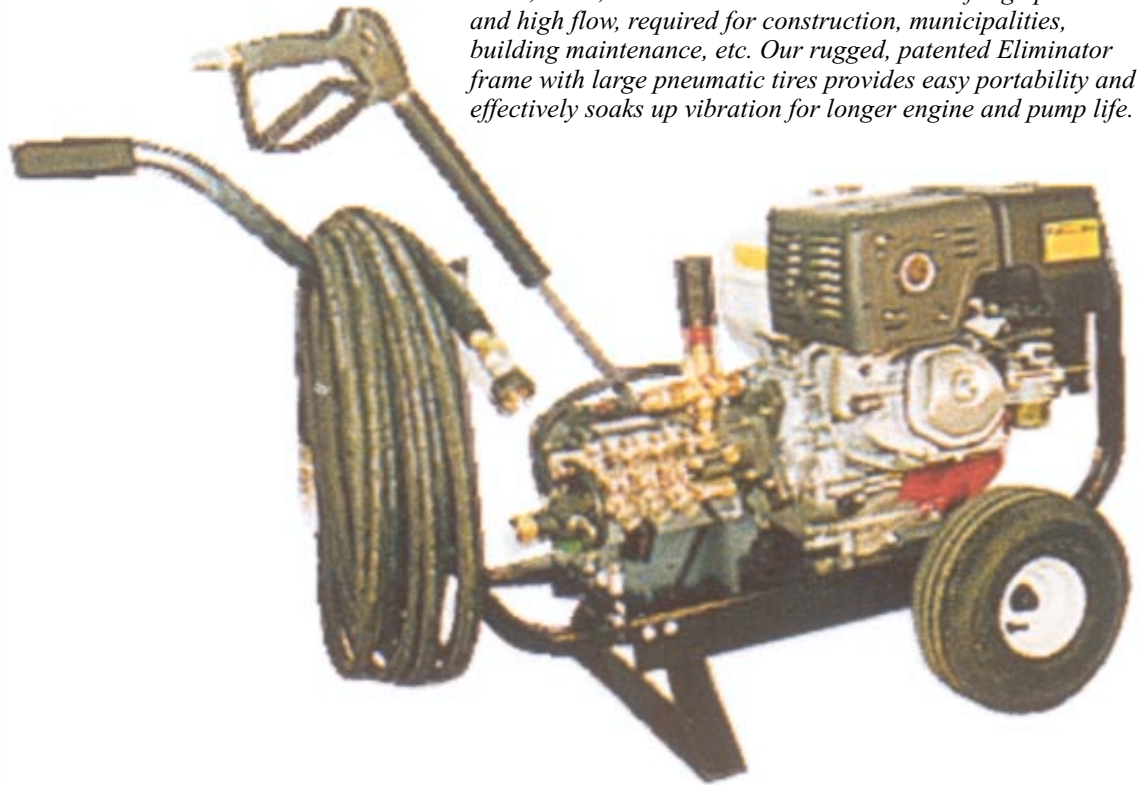

SPECIFICATIONS

- **Engine:**
13 hp Honda OHV
- **Pump:**
Annovi/Reverberi
Commercial Tri-plex
- **Maximum Pressure:**
3,000 P.S.I.
- **Maximum Flow:**
6.0 G.P.M.
- **Cleaning Force:**
18,000 Units
- **Nozzle:**
Quick-Couple:
0°, 15°, 25°, 40°
and Soap Nozzle
- **Wand:**
36" Two-Piece
Fully Insulated
- **Hose:**
50' Long
3/8" Diameter
3,000 P.S.I.
- **Additional Features Include:**

Heavy-gauge steel frame with powder coat finish

Set of five Quick-Couple nozzles

Thermal Relief (Pump-Saver) Valve.

A powerful cleaning force for commercial use.

The 3,000-4,000 PSI Series is a combination of high pressure and high flow, required for construction, municipalities, building maintenance, etc. Our rugged, patented Eliminator frame with large pneumatic tires provides easy portability and effectively soaks up vibration for longer engine and pump life.

What Is Cleaning Force?

The only true measure of actual cleaning effectiveness!

PSI x GPM = Cleaning Force

High pressure without adequate water flow to wash away debris does not deliver good cleaning efficiency!

PSI alone does not tell the whole story! The higher the cleaning force, the more your pressure washer will do for you!

EVERY AQUA-STRIPPER COMES WITH:

A long-life commercial-duty pressure pump made by Annovi/Reverberi. A/R is recognized as a world leader in pressure pump technology, with a reputation for innovation and uncompromising quality in design and engineering.

- A steel cart with easy-rolling pneumatic tires.
- Low-pressure detergent application, easily controlled at the nozzle.
- Adjustable pressure unloader valve.
- Fully-insulated gun/wand with easy-squeeze trigger.
- **Peace of Mind:** Your Aqua-Stripper Dealer stands behind their products and provides parts, accessories and service expertise, after the sale.
